To,

The member Secretary  
Karnataka state pollution control Board  
#48 Parisar Bhavan 4<sup>th</sup> and 5<sup>th</sup> Floor,  
Church Street  
Bangalore-560001

Submitted through: Environmental Officer, Regional Office, KSPCB, Bagalkot.

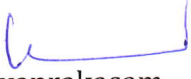

Subject: - submission of Environment Statement For the financial year 2019-20-Reg.

R/sir,

With reference to above cited subject, we are enclosing herewith the Environment Statement for financial year 2019-20 for our "M/s Jamkhandi Sugars Ltd" Distillery Division located at Hirepadasalgi village, Nagnur Post-587301, Jamkhandi Taluk, Bagalkot District, Karnataka. Kindly acknowledge the receipt, So that we can upload the same in our company website.

Thanking You,

Yours Faithfully,  
For Jamkhandi Sugars Limited

  
V. Sivaprakasam  
Managing Director

Encl: Two copies of Environmental Statement.

| 1     | From Process(by products)<br>a) Yeast Sludge MT    | 1200  | 1509  |
| II    | From Pollution Control facility<br>a) Ash MT       | 1285  | 2420  |
| III   | c) Quantity recycled or reutilized within the unit | Ash sold to brick manufactures              | Ash sold to brick manufactures.             |

## PART-F

Please specify the characterization (in terms of Composition and quantum) of hazardous as well as solid wastes and indicate disposal practice adopted for both these categories of wastes.

Hazardous waste: Not Applicable.

## PART G

Impact of the pollution control measures taken on the conservation of natural resources and consequently on the cost of production

A. Impact of pollution abatement on conservation

A. 480 KL/Day spent wash is concentrated two stage evaporation is utilized in the incineration boiler.

## **PART-H**

Additional measures/investment proposal for environmental protection including abatement of pollution, prevention of pollution

Industry has commissioned the Incineration boiler of 22 TPH for utilization of spent wash after multiple effect evaporation in incineration boiler as fuel. Bag filter is installed for emission control for the suspended particulate matter through flue gas.

The company has already adopted various quality systems and improved manufacturing discipline. This has resulted in material conservation and waste reduction this year.

The industry has reduced its fuel consumption this year considerably compared to previous year. The indirect benefits are lesser emission of pollutants, maintenance of ambient air quality and energy conservation.

## **PART-I**

Any other particulars in respect of environmental protection and abatement of pollution.

Condensate Polishing Unit (RO process) is provided for the treatment of process condensate from MEE and spent less. The RO out let is utilized for cooling tower make up water. This year additional tree plantation of 800 trees was carried out for the minimization of fugitive emissions.
